

Improving health & social care research for people with MLTCs and multimorbidity

**Reporting on a Cross-Theme Public Workshop Held on 27th
May 2021**

This project was funded by the KCL/ Wellcome Trust Institutional Strategic Support Fund

Cross-theme Organising Team

- Palliative and End of Life Theme
- Public Health
- Social Care

Why we ran this workshop

We wanted to learn more about how we can best work together with people with multiple long-term conditions in our research

- Collaborating as partners in research
- Supporting participation in research
- Ensuring research makes a difference

Researchers
must be
compassionate
and flexible

Make space for
discussing prior
bad experiences
of care / health
services

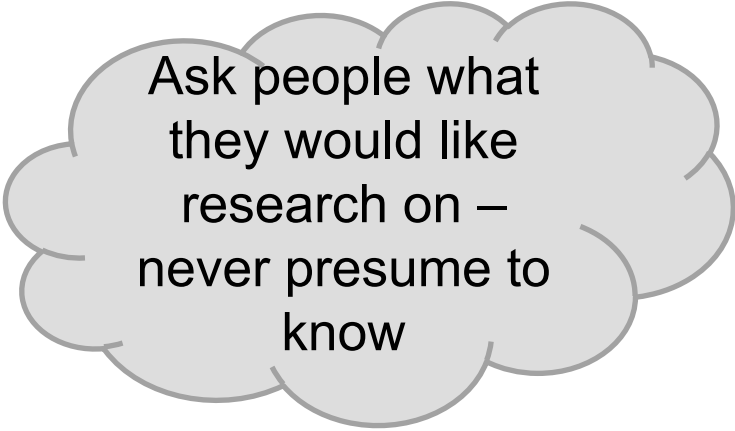

Create
opportunities for
people to
socialize and
build community

Key Findings and Reflections

Look to
understand and
address diverse
experiences of
exclusion

Ask people what
they would like
research on –
never presume to
know

Use the arts to
communicate and
open-up research
opportunities to
family, friends, and
carers

Thank you!
