

ARE YOU A RESEARCHER OR PART OF A RESEARCH TEAM SEEKING TO WORK WITH LOCAL COMMUNITY ORGANISATIONS AND INCLUDE SELDOM LISTENED TO VOICES IN YOUR WORK?

[Mabadiliko CIC](#) is leading the South East London Research Engagement Network (REN) project in partnership with South East London Integrated Care System, King's Health Partners and NIHR CRN & ARC South London, to pilot a **model for culturally-sensitive and inclusive research involvement**.

Are you and your research team ready to embrace diverse perspectives in your research practices?

We are currently seeking partnership opportunities for SE London-based community leaders. If your research could benefit from the **inclusion of seldom listened to voices** in any/all of its **design, planning, delivery** or **dissemination**, then we'd like to hear from you!

What would be involved?

Selected researchers/research teams will be enrolled in a short **cultural humility course** (up to 4hrs self-guided online learning + attendance at a 3hr online workshop over **Feb-Mar**) and will be expected to make themselves available for **2-3 meetings with community organisations** over the period **1 to 12 Apr**.
